ARCHITECTURAL BENCHES · BOROBIL LINE

Borobil Bench, Ø 1.4 m

BOAR002A

BOROBIL large, the biggest piece in the family. A round architectural concrete piece with soft lines and a minimalist style, functioning as an informal seat and sculptural element. Resistant to the most adverse weather conditions and maintenance-free, ideal for squares, parks and gardens.

TENDER TEXT · BOAR002A

Bench Borobil by Joma Urban, reference BOAR002A, moulded concrete with etched finish. Its dimensions are 1,370mm long x 1,350mm wide x 450mm high. It is made of high-quality architectural concrete HAC45-B12-IIIa SR, sulphate-resistant for aggressive environments, available in grey, white, black and beige. The finish is fine acid-etched, water-repellent, with an anti-stain and anti-fungal surface protection in accordance with standard EN 13198. The SR compound is less porous, which makes it more resistant to moisture and mould. The bench is anchored by its own weight, ensuring stability without the need for additional fixings. The materials used are recyclable and sustainable. Resistant to adverse weather conditions and requiring minimal maintenance. Complies with the safety and quality standards of ISO 9001.
